Frameworks and Libraries

Debugging

Web Performance Optimization

Web Services

Profile Summary

- My objective is to design and implement innovative web applications that enhance user experiences and drive business growth.
- Results-driven and conscientious web developer, specializing in building responsive websites and web applications.
- Through collaboration and continuous learning, I aim to contribute to a dynamic team and take on challenging projects to further refine my development skills and create impactful digital experiences for users.

Projects

- **Portfolio:**
I've developed an amazing portfolio website using HTML, CSS and JavaScript. It show-cast all details about me, my project, my skills and experience etc. [🔗](#)
- **Closet:**
I've developed my personal Closet website using HTML, CSS, and JavaScript. This website allows me to organize and showcase my wardrobe digitally. Users can easily navigate through different categories of clothing, add new items, and even create outfit combinations. My Closet website offers a visually appealing experience for managing my clothing collection. [🔗](#)
- **Blog Website:**
I've developed an amazing Full stack Blog Website using Html, CSS, JS and Bootstrap for front end and JavaScript for backend. In this website user can add the blogs, edit and update the blogs and can read the blogs of other users who have published. [🔗](#)
- **Weather App:**
I've developed a weather application using React.js. The app fetches weather data from the Open Weather API, which provides real-time weather information. Users can input their location to display current weather conditions, forecasts, and other relevant data in an intuitive and user-friendly interface. [🔗](#)
- **Todo APP:**
I've developed a Todo application using React.js. It is a tool for managing your tasks and organising your daily activities. I have used local storage to store the user's Todo list directly in their web browser, allowing them to access it even after closing the browser or refreshing the page. This Todo app provides a convenient way for users to create, edit, delete and manage their tasks, all within their web browser. [🔗](#)

Certificates

- AWS Academy Graduate - AWS Academy Cloud Foundations
- MS Office
- HTML, CSS, JavaScript and Bootstrap Certification Course
- Building a website certification course

Internships

- **PHN Technology:** Web Development, 06 April 2023 – 06 June 2023 [🔗](#)
- **Bharat Intern:** Web Development, 10 June 2023 – 10 July 2023 [🔗](#)
- **LetsGrowMore:** Web Development, 1 July 2023 – 31 July 2023 [🔗](#)
